

## Jordan Freitag

My name is Jordan Freitag. I am from Mount Horeb, Wisconsin. I have two siblings: a younger sister and a younger brother. I just recently transferred to William Woods University in Fulton, MO. I am a sophomore majoring in Biology with a pre-vet emphasis and a minor in equestrian science. I hope to become an equine veterinarian someday with this degree and continue my involvement with Morgans with my equestrian science minor. I have been involved with Morgan horses since I was 5 years old at Hylee Farm. I now show my Morgan, Ultras Free Agent CH in adult hunt seat equitation, hunter pleasure, showmanship, and in-hand classes. This year will be my second year attending Morgan Grand Nationals, and I am beyond excited to have this opportunity again! When I am not riding or studying, I enjoy photography, reading, drawing and hanging out with my puppy, Luna. I have achieved High point awards each year for 4 years from North Central Morgan Horse Association. I am also on the AMHA Youth Council. Currently, I am serving as the Director of Public Relations. I enjoy meeting new Morgan friends and getting involved with the breed! This breed is a huge part of my life and I take pride in spreading awareness of the breed. In addition to this, I recently started to photograph for The Morgan Magazine at local shows. This has been super fun! I have also been awarded the equine science—placement award through FFA at both local and state levels, achieving gold in this area. In 2021, I was the reserve youth of the year, and it was an honor to hold this title. I would like to be selected as the outstanding Morgan Youth of the Year because this breed has had a significant impact on my life growing up. I would like to continue my involvement and promote this outstanding breed, and its countless opportunities. I would not be where I am today without the Morgan horse. It would be an honor to be selected as the outstanding Morgan Youth of the Year.
